Dear Conventa participants,

New Europe

we are celebrating already the 12th edition of the Conventa Experience. This is a great achievement for the small Conventa Team. We are focused on delivering superb meeting and social experiences to exhibitors coming from 16 countries and clients/hosted buyers coming from 39 countries.

Conventa is a celebration of the meetings industry of the region of

In cooperation with our Ljubljana destination partners, Ljubljana Tourism & Convention Bureau and the Slovenian Tourist Board, another great show has been put together. This year's Conventa welcomes a record number of exhibitors and hosted buyers. While we are maintaining a high retention rate with last year's exhibitors, several new exhibitors recognised Conventa as a great marketing opportunity. This year Conventa also welcomes more than 200 hosted buyers, of which more than 80 % are participating for the first time. Conventa is probably the only show, where such statistics are possible.

Conventa 2020 will offer many novelties and surprises. We believe one must grow and improve constantly in order to be successful. But the slogan of Conventa stays the same: Explore - Meet - Create.

Finally, I want to share with you what I already shared last year, but it is still valid.

"We have invested all of our knowledge, positive energy and passion into making this year's Conventa another great success. Enjoy this moment and invest your energy into Conventa too. You can only receive it if you share it!"

THE CONGRESS TRIBE OF CONVENTA CONVENTA, PERSONALLY

At least for me, Conventa is full of memories. Memories of meetings with colleagues, especially those who have become friends during the past decade; memories of heated discussions about the region and the future of the meetings industry. Debates among dedicated professionals are a thing of beauty – we learn and inspire one another, building the story of the meetings industry of New Europe.

It makes me wonder whether such personal experience can really be replaced by the virtual tools that are evangelised so enthusiastically by the many preachers of technology. I am convinced that no technology could possibly replace the personal contact we repeatedly facilitate every January and that has become something of a ritual. It is human nature to meet, socialise, rejoice and exchange views, advancing in our professions. Conventa is not just a tool that enables meetings. It is a platform that helps the regional meetings industry understand current trends and anticipates future ones, and this year, we are especially proud of the first publication of a study researching the future of event organisation.

Conventa is also our partners, who, despite being overlooked by most of the participants, are indispensable for the very existence of Conventa. Conventa is a collaboration of 12 partners taking care of every last detail that goes into the Conventa experience. A decade later we operate as a well-coordinated team, continuously refining the personal experience of the participants.

Last but not least, there is the heart of Conventa, an enthusiastic and devoted team of eight professionals who keep proving themselves and adding value to the event year after year. It is a great responsibility and it really matters who you organise the event with. I am sincerely proud of my team; they readily invest numerous hours of work into the project and reach newer and newer heights.

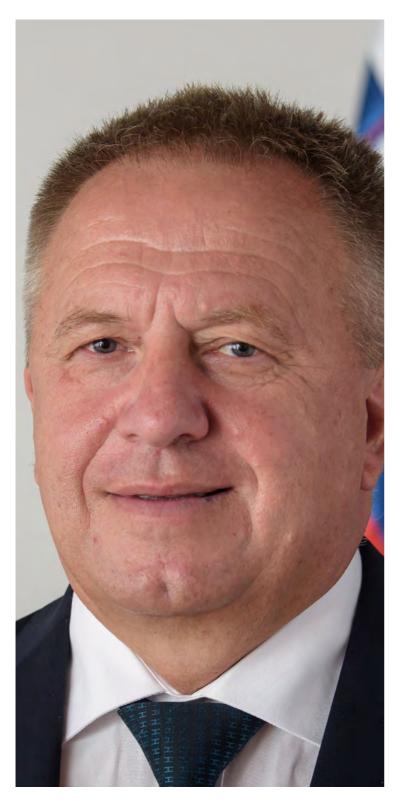

Conventa is changing, adapting to the new demands posed by the customers and the exhibitors. For some, Conventa is too big – for others, too small. Some resent our achievements, still others would prefer to turn everything on its head. I, for one, am proud of Conventa; I have had countless times been reassured that we are on the right path. Conventa is resilient and we have plenty of energy for another decade of development. I am confident that this is not the last jubilee we will celebrate.

Dear guests, partners, and participants of the 11th CONVENTA – TRADE SHOW FOR MEETINGS, EVENTS & INCENTIVE TRAVEL OF THE NEW EUROPE

It is my great pleasure to welcome you to Slovenia for the 11th Conventa trade show, the leading business-to-business MICE industry event of the New Europe.

We are very proud that this trade show is growing in quality and attracts new exhibitors and buyers from all over the world each year. Partners, it is very important to us that you recognised Slovenia as an attractive and reliable partner in the field of MICE tourism. According to our Strategy for Sustainable Growth of Slovenian Tourism 2017–2021, MICE is one of the leading tourist products of Slovenian tourism.

Our strategic vision for Slovenian tourism is Slovenia as a global green boutique destination for demanding guests who are seeking a diverse and active experience, peace of mind and personal benefits. In 11 months of 2018, more tourists visited Slovenia than in the whole of 2017. There were more than 5.3 million tourist arrivals and over 14.5 million overnight tourist stays in 11 months of 2018. Big, international events, fairs, workshops and trade shows, such as Conventa, are very important for recognition of Slovenia as an attractive tourist destination and important player in the global tourism market.

This year Conventa is hosting exhibitors of MICE services from 15 countries, who will meet at several one-to-one meetings with over 180 international and regional hosted buyers from 40 countries. These are record-breaking numbers for the Conventa trade show since its inauguration in 2009. We believe that there will be many contracts signed among the partners, especially because Slovenia won the title "European Region of Gastronomy 2021". It is a well-known fact that gastronomy is an important part of the complete MICE product and an authentic destination experience.

The Slovenian Convention Bureau and Toleranca Marketing have successfully organised Conventa in Ljubljana for the past 10 years. If we put those 10 years into numbers, over 29,150 B2B meetings were carried out, which resulted in many successful new business relationships. The trade shows have hosted more than 1,319 exhibitors and over 2,576 hosted buyers from 48 countries. But Conventa is not only about fruitful meetings, the educational modules, fam trips, awards ceremony, and the interesting, dynamic social programme that offers many opportunities for networking and gathering, are also an important part of each year's Conventa.

Please allow me to use this opportunity to congratulate to organisers and all the partners of Conventa team, as well as to all of you for being our regular partners and welcome guests.

We are very honoured that Slovenia is a central meeting point for top players from the MICE industry of the New Europe and that every year we have welcome new participants from various overseas countries. The Conventa trade show is the event that builds cooperation and links the MICE industry from the region and outwards with various tourism stakeholders. I hope that you will have the opportunity to feel our "Green. Active. Healthy" tourist destination and discover various possibilities for co-operation. Tourism is the economic branch where innovation, attractive products, effective marketing, and international co-operation are of vital importance and you are attending the event where all of this is combined.

We wish you much success and many fruitful meetings as well as plenty of positive, creative energy and a pleasant stay in Slovenia.

OMG! IT'S CONVENTA - ITS 12TH EDITION ALREADY

The past 11 years of Conventa, the trade show highlighting New Europe's meetings, events & incentive travel offer, have proven incredibly exciting - by focusing on smart development and innovation. While staying loyal to the idea of a boutique business experience with a personal touch, the organizers have managed not only to stay relevant amidst the growing number of European exhibitions of similar type but to upgrade the quality of Conventa with every new edition. The Show has been regarded as a fixed and important yearly event for high-level meetings industry experts.

All this has contributed greatly to Ljubljana becoming an increasingly sought-after destination in Europe and globally, catering to the needs of both leisure tourists and meeting organizers in search of a compact green, smart and sustainable city with an efficient professional service and a vast range of congress facilities.

The participants of international association congresses and other types of business meetings are very valuable visitors of Ljubljana. This was confirmed also by the latest Ljubljana congress survey, carried out in 2019 by Ljubljana Tourism / Ljubljana Convention Bureau for the third time in a row. The main goal of the ongoing annual research is to analyze consumption habits and expectations of delegates attending international association meetings, as well as their satisfaction with Ljubljana. The results are very positive to a large extent, which motivates us to further improve the quality of services and experiences in our destination.

The most significant advantages of Ljubljana as perceived by the congress participants are the sense of safety, congress staff, city's cleanliness and orderliness and local hospitality. I believe it takes a lot of professional consistency, vision and passion from everyone working in the local congress tourism segment and wider in order to continuously receive such positive responses.

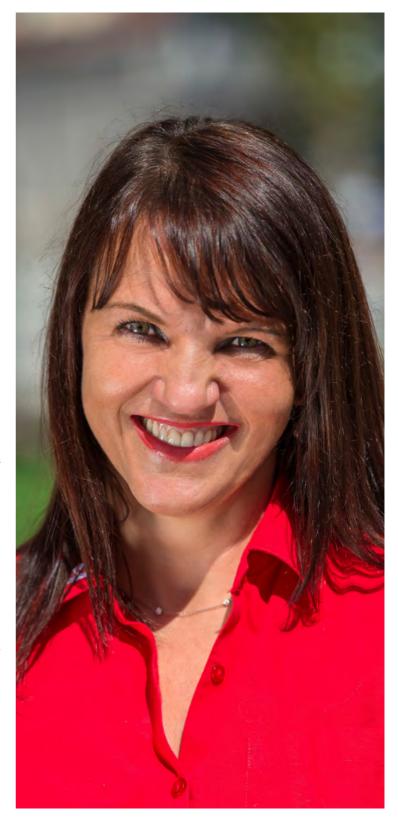

But Ljubljana has never been the one to take rest after the first victories, and has been continually seeking to enhance and expand its tourist offer. Slovenia's Presidency of the EU in the 2nd half of 2021 and the constant increase of visitor numbers have spurred recent investments in the hotel sector. New hotel openings are planned in the next three years that will bring a range of modern capacities for various types of events. They will add approximately 1,400 new rooms to the city hotel portfolio by 2023, which means the estimated total number of rooms in town will amount to approximately 4.100 (45% increase of the current capacity).

What is more, 2021 will also see the opening of the completely renovated Sugar Factory ("Cukrarna") Gallery project, a special venue located about 10-min walk from the Old Town. The new multifunctional event /cultural space has a very rich history - having once been the largest sugar processing plant in the Habsburg Lands - will accommodate approximately 1000 guests.

I'm very proud of the programme, set-up, social events, pre-and post tours and general vibe that the Conventa organizing team (with special thanks to YOU, dear event organizers from all around the world), has established and promoted over the course of these years.

I look forward to relishing in the views of Conventa's packed day and night venues - the smiling faces of the guests, hosted buyers and exhibitors alike, which reflect exceptional professional commitment, positive attitude and sheer pleasure of doing business in our capital Ljubljana offer a truly incredible sight!

May I warmly welcome you to the 12th Conventa - enjoy the meetings, lectures, social gatherings and the city to the fullest!

MEET THE TEAM OF CONVENTA 2019

MIHA KOVAČIČ Exhibition Director

Q:How did you get into the meetings industry?

Fifteen years ago, when I was working for the largest tour operator in the country, the M&IT department head invited me to join the team and I have not left the industry since then, despite a few years after that changing to the convention hotel and eight years ago to the national convention bureau. It's a challenging but rewarding experience contributing to the development of the industry.

Q: What is the most positive thing about Conventa?

It is difficult, or almost impossible, to name the most positive one, as there are so many and they are all connected to each other. Conventa is also a development project, so things are changing every year. One of them is definitely positioning Slovenia and South East Europe on the international meetings map. The next one could be uniting the meetings industry of the region and developing its product and its potential, but also demonstrating its value and contribution to national economies.

Q: Career high?

I am in the middle of my professional career. The first half has been great, so I am looking forward for the second half.

Q: Now, let's get a bit more personal... three words that describe you best?
Work-hard, play-hard, being-me.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

Global top innovative blue chip corporation.

Q: If you could fly off to any destination in the world, which one would it be?

Winter / spring / summer / autumn / alone / with partner / family / friends / weekend / week / month / year – How many answers may I give you?

Q: What always makes you smile? Friends and some colleagues, but also passionate people.

GORAZD ČAD
Head of Marketing

Q: How did you get into the meetings industry?

I was first inspired by the meetings industry at Cankarjev dom, where I worked as a student. At that time it was virtually the only convention centre and PCO in Slovenia, which gave me a lot of knowledge and connections, and it was a long time infection that still lasts to this day. In the interim, I also tried my hand as a hotelier, but my passion for the meetings industry and organisation led me to start my own company which, in addition to other projects, we are co-creating Conventa.

Q: What is the most positive thing about Conventa?

It is definitely the special energy that we have managed to create at the event and for which much larger congress organisers envy us. The energy is the result of Conventa being prepared by highly experienced organisers who try to understand the buyers' needs as well as those of exhibitors. At the same time the whole event is conceived as a boutique experience.

Q: Career high?

In my long career there have been a lot of events that could be described as peaks, depending on the period. Of the congresses, the highlight was definitely the largest congress in Slovenia's history, the Apimondia Congress, which was organised in 2003 in Cankarjev dom. Today, the greatest challenge and at the same time greatest satisfaction is managing my own firm, and I am especially excited by changes in the field of content marketing that we are trying to promote through the production of the Kongres magazine.

Q: Now, let's get a bit more personal... three words that describe you best?
Rock'n'roll.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

As a geographer by heart, I would probably travel around the world and write travelogues

about the most unusual places I visited.

Q: If you could fly off to any destination in the world, which one would it be?

I would travel the length and breadth of Russia and explore the endless expanse of Siberia.

Q: What always makes you smile?

The morning walks with my flat-coated retriever, whose name is Bodo.

NATALIJA BAH ČAD
Exhibitor and Social Programme Manager

Q: How did you get into the meetings industry?

During my study at the Faculty of Arts I was working as a hostess at Cankarjev dom, the Congress and Cultural Centre in Ljubljana. At that time I first had the chance to get in contact with congress participants, which was a very interesting experience. When there was an opportunity to start working in the PCO department, I knew that it was what I wanted to do. And I stayed there for 10 years...

Q: What is the most positive thing about Conventa?

I have been involved in the organisation of the biggest congresses held in Ljubljana with very complex logistics, but Conventa is special. Firstly, because we made it happen from scratch. And every year the challenge is how to make it even more effective for providers and hosted buyers.

Q: Career high?

After 17 years in the meetings industry, I still see a lot of challenges. For sure I will continue my work as a congress organiser and share my experiences with younger colleagues who would also like to work in the meetings industry.

Q: Now, let's get a bit more personal... three words that describe you best?
3C: calm, creative, curious.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

Hmm...if not a meeting planner, then I would probably try it as a designer.

Q: If you could fly off to any destination in the world, which one would it be? I am dreaming about Africa.

Q: What always makes you smile? Nice sunny mornings.

MAJA MIRTIČ
Hosted Buyer Manager

Q: How did you get into the meetings industry?

By coincidence. My work colleague Ana, who I can now call my friend, has introduced me to the industry.

Q: What is the most positive thing about Conventa?

People. From the organizing team, business partners, hosted buyers to exhibitors.

Q: Career high? Upcoming Conventa.

Q: Now, let's get a bit more personal ... three words that describe you best?

Positive, persistent, sensible.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

I would be working something in the mixture or in the field of public relations and international relations.

Q: If you could fly off to any destination in the world, which one would it be?

Q: What always makes you smile? Positive people.

SARA TIEFENGRABER
Content Manager

Q: How did you get into the meetings industry?

By chance, exploring my professional horizons.

Q: What is the most positive thing about Conventa?

Meeting new people, helping meeting professionals connect with each other and seeing happy faces at the end of it all.

Q: Career high? Can't say, still going higher.

Q: Now, let's get a bit more personal ... three words that describe you best?
Goal-oriented, daring, understanding.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

I would be working in marketing in another industry or professionally running marathons

Q: If you could fly off to any destination in the world, which one would it be? Hawaii, Oahu North Shore, that's my happy place.

Q: What always makes you smile? A good workout. Also dogs :)

MAJA PODGORNIK Hosted Buyer Manager

Q: How did you get into the meetings industry?

With a little help from my friends.

Q: What is the most positive thing about Conventa?

Mingling with such diverse people leaves you wanting more... No worries, we're here for years to come.

Q: Career high?

The sky is the limit and I'm evolving with desire.

Q: Now, let's get a bit more personal ... three words that describe you best?

Joyfull, dreamer, positive.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

I would probably end up in the meeting industry again.

Q: If you could fly off to any destination in the world, which one would it be? Tetiaroa, Cadiz and soooo many more.

Q: What always makes you smile? Life with its humour, sea, sushi and my loved ones.

TINA SARAH BERTONCELJ
Assistant to Exhibitor Manager

Q: How did you get into the meetings industry?

Well... It all started with a meeting, of course.

Q: What is the most positive thing about Conventa?

Our dream team. After the second morning coffee.

Q: Career high?

I don't really need a career to get high (but i need a lot of coffee).

Q: Now, let's get a bit more personal ... three words that describe you best?

It would be quite a lazy way to describe me with only three words.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

As a communication specialist and a content writer I already work in various fields. But otherwise, I've always wanted to be a profiler or a consultant detective.

Q: If you could fly off to any destination in the world, which one would it be?

Anywhere by the sea, to a place with warm weather and good food. For instance, French Polynesia.

Q: What always makes you smile?

My favourite people. Summer and the sea.

French movies. And a beer or two

KLAVDIJA BOLJTEŽAR Project Assistant

Q: How did you get into the meetings industry?

I worked in Cankarjev dom during my college practice and afterward, I wrote my bachelor's degree about the meetings industry in Ljubljana.

Q: What is the most positive thing about Conventa?

Meeting new people and making new friends.

Q: Career high?

I haven't reached my highest career goal yet, but until now it's helping with organizing Conventa 2020 and getting new experiences in the meetings industry.

Q: Now, let's get a bit more personal ... three words that describe you best?

Active, curious, spontaneous.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

I would be a tourist guide in Ljubljana, which is my hometown and I would enjoy informing tourists about our small but very interesting city.

Q: If you could fly off to any destination in the world, which one would it be? Discovering Poland with Warsaw and Krakow.

Q: What always makes you smile?

A cup of green tea, morning jogging, and my boyfriend's cats.

BARBARA DIMECGraphic Designer

Q: How did you get into the meetings industry?

By coincidence. I wasn't planning on it but now that I am in it, I find it fascinating.

Q: What is the most positive thing about Conventa?

It is a wonderful event where participants have the perfect opportunity to explore new possibilities, meet potential business partners, and create new and exciting opportunities in the meetings industry.

Q: Career high?

My goal is currently to enrich my design skills and expand my area of expertise to marketing. On the larger scale, I am striving to get a grasp on the complexity of the industry and grow my career with the aspect that I find most intriguing.

Q: Now, let's get a bit more personal ... three words that describe you best?

Positive, eager for knowledge, and optimistic.

Q: If you weren't working in the meetings industry, what other profession would you be doing?

I sort of have "other profession", as a graphic designer I have opportunity to work in different fields, but as fate would have it, I do majority of my work in the meetings industry field.

Q: If you could fly off to any destination in the world, which one would it be?

Just one? But I have so many in mind. Maybe the first one that pops into my mind is New Zealand.

Q: What always makes you smile? Awesome people with a good sense of humour. And cats, cats are funny.
